

## SUSTAINABILITY ANALYST INTERN

*For 6 months*

### ABOUT US

Enerdrape is a cleantech spin-off of the EPFL that develops a novel geothermal panel technology allowing to turn any kind of underground infrastructure, from car parks to tunnels, into renewable energy suppliers for the heating and cooling of buildings. The company was created in 2021 after several years of scientific development at EPFL and is now growing and looking for new members to help bring this solution to the market. Enerdrape envisions a future where underground infrastructures will not only facilitate the transport of people across urban ecosystems but also the clean energy supply of any building or infrastructure.

### YOUR ROLE

As a Sustainability Analyst Intern, you will play a crucial role in assessing, monitoring, and evaluating our company's sustainability strategy and ESG ambitions across various aspects, including supply chain management and daily operations. You will be assist the managing team with projects related to the life cycle assessment of our products, the implementation of a global sustainability strategy, and the assessment of potential sustainability-related business models, such as carbon credits emissions associated with our products.

### THE JOB'S MISSION

- Conducting life cycle assessments of our products to analyze their environmental impact.
- Assisting in the development and implementation of a global sustainability strategy.
- Evaluating the potential for sustainability-related business models, such as carbon credits.
- Analyzing methodologies associated with sustainability assessments.
- Monitoring sustainable initiatives execution.
- Collaborating with cross-functional teams to gather data and insights.
- Assisting in the preparation of sustainability reports and communications.
- Staying updated on sustainability trends, regulations, and best practices

### COMPETENCES AND PERSONNAL SKILLS

- Bachelor's degree in Sustainability, Engineering, or a related field.
- Strong interest in sustainability and a passion for making a positive environmental impact.
- Detail-oriented with excellent analytical and problem-solving skills.
- Open-minded, adaptable, and eager to learn in a dynamic startup environment.
- Strong communication and interpersonal skills.
- Proficiency in English (mandatory), knowledge of French is a plus, and familiarity with other languages is a bonus.
- Ability to take initiative and assume responsibilities rapidly.

### WHY JOIN US?

- Be part of an inclusive, diverse culture, where everyone's contribution is respected.
- A modern, flexible working environment.
- Hands-on experience in the field of sustainability and ESG initiatives.
- Opportunities for personal and professional growth.
- Networking opportunities with industry experts.
- Competitive internship stipend/salary.
- Potential for a future career opportunity within our organization based on performance.
